Re: Duane Marine - Groundwater Sampling Data

Julie,

Enclosed you will find a complete set of the analytical data resulting from the groundwater monitoring well samples collected during the preliminary site investigation conducted by EPA in May of 2001 at the subject facility.

In addition, diagrams depicting the location of samples and contaminant concentrations (PCB and metals) resulting from the analysis of surface soil collected by EPA on November 7, 2002 are enclosed.

Should you have any additional questions, do not hesitate to contact me (908) 906-6983.

Sincerely yours,

A handwritten signature in cursive script that reads "Joseph Cosentino".
